

## EMC Aerospace Warranty Policy

EMC Aerospace warrants that all Inspected, Repaired or Overhauled articles finished at the time of delivery will be free from defects in material and workmanship.

EMC Aerospace warrants articles that have been Repaired and/or Overhauled at its facility against defective workmanship and will repair at its premises any such component that has failed for that reason within the stipulated warranty period. EMC also warrants that have been Repaired and/or Overhauled at its facility against defective parts supplied by us (excluding accessories not serviced by EMC or customer-supplied parts/materials).

**Bench Test** – On units that are only Bench Tested and found to be within tolerance as described by the manufacturer’s specifications, there will be NO warranty implied.

**Repair** – EMC Aerospace warrants Repaired items for a period of two years (24 months) from the date on the 8130-3. This warranty does not give full coverage on any failure during this time but is limited to the labor and parts/material replaced by EMC at the time of the Repair.

**Overhaul** - EMC Aerospace warrants Overhauled items for a period of three years (36 months) from the date on the 8130-3. This warranty does not give full coverage on any failure during this time and is limited to the labor and parts/material replaced by EMC at the time of the Overhaul.

Components that fail must be returned to EMC Aerospace at the customer’s expense within 30 days after failure. EMC has the right of replacing or repairing the component and authorizing its return to service.

EMC Aerospace reserves the right to refuse any warranty claim if the component has been subjected to any of the following conditions:

- 1. If the customer failed to pay for the Repair or Overhaul service as agreed*
- 2. If the component had been damaged in shipment to EMC Aerospace*
- 3. If the component has been exposed to adverse environmental effects (i.e. moisture, excessive heat, F.O.D., etc.)*
- 4. If the component had been improperly installed by the manufacturer, repair facility, or end user*
- 5. If the component had been damaged by operator error resulting from improper installation by the manufacturer, repair facility, or end user*
- 6. If the component had not been reported to EMC as defective and/or shipped outside the 30-day allowance for the return of components upon failure*
- 7. If the component had been subjected to improper usage, mistreatment, tampering, been repaired/altered at another repair facility or if any attempt is made to repair the component*

EMC Aerospace’s total liability is expressly limited to the repair/replacement of defective parts or workmanship. This warranty is in lieu of all other warranties, whether expressed or implied.
